

INDUS

DESCRIPTION

Industrial low-bay luminaire INDUS designed for energy-efficient and precise lighting. With DALI control, an IP66 protection rating and operation in temperatures ranging from -20°C to +50°C, it delivers durability and performance in demanding environments. Available in a range of 39 W to 90 W, INDUS easily adapts to different lighting requirements and offers flexible installation options, both pendant (with optional extended cable) and floor mounting.

APPLICATIONS

INDUS luminaires are used across various industrial and commercial environments, including warehouses, terminals, industrial refrigerators, shops, food and medical facilities, furniture manufacturing, car-care centers and parking areas.

BENEFITS

- **Reliable producer:** Designed, developed and manufactured by ENIM, a trusted EU producer.
- **Exceptional Efficiency:** High-performance LEDs deliver up to 166 lm/W, ensuring maximum brightness with minimal energy consumption.
- **Versatile Power Options:** Available in 39 W to 90 W configurations, adaptable to various lighting needs.
- **Intelligent Control:** DALI compatibility and motion sensors enhance energy savings and user convenience.
- **Casambi possibility:** Available as an option with Casambi-ready drivers.
- **Engineered for Longevity:** An anodized aluminum heat sink and optional painted metal cover ensure durability, with a lifespan of up to 100,000 hours (L90 B10).
- **Rugged Protection:** IP66-rated for full resistance to dust and powerful water jets.
- **Compact & Convenient:** Simple design for easy integration into various environments.
- **Flexible Installation:** Supports pendant (with optional extended cable) and floor mounting.

TECHNICAL INFORMATION:

ELECTRICAL	V	Input voltage	220-240
